The included *Shroud & Mount* Kit is outfitted with acoustic fabric to *keep the noise levels and audio reverberation to a minimum* to ensure the highest quality audio experience for both in-person and remote audiences in open spaces.

The acoustic felt material is made of 100% polyester containing up to 50% of recycled plastic bottles (PET).

The back is wrapped in *acoustic felt*. Therefore, when used as a room divider, the freestanding model also functions as a *sound dampener*.

ISE 2024 Virtual Tour

- If you were not able to go to Barcelona and visit ISE 2024, we got you covered. You can now walk across our booth and check out all products like you were actually there. Click your way through the booth and click on the products for more information.
- Even if you were at the show, you might not have had the time to see everything we had on display, and this is a great option to take the time and see it all.

Thanks for your time.
