Matrox Video: 45 Years of Innovation and Technology

Matrox® Video (<https://www.matrox.com/en/video>) is a leading manufacturer of reliable, high-quality ASICs, boards, appliances, and software for the broadcast and media, live entertainment and AV/IT markets.

Our product offerings span encoders and decoders, KVM extenders, video wall controllers, and broadcast developer products. Matrox is also a trusted supplier of some of the world's leading OEMs, offering a broad product and intellectual property (IP) portfolio to help solution providers accelerate product development, customization, and time to market.

- Private company, incorporated in 1976
- Worldwide Headquarters in Montreal, Canada
- EMEA Sales offices in Munich and London

H.264 & H.265 based Encoders & Decoder:

Matrox Maevex Series

Matrox Maevex 6100 Series H.264 Encoders

- Quad & Dual appliances, and Quad PCIe card
- High density encoding:
 - Appliances: 4Kp60 input capture with zero-latency pass-through
 - Rack mountable - 1U, ½ width, quiet
 - PCIe x16 card: 4Kp30 input capture
- Streaming **and** Recording
 - Simultaneous **capture, encode, stream, record**
 - Protocols: RTP, MPEG2.TS, RTSP, RTMP, SRT, HLS
 - Record locally and/or on network
 - HDCP 1.4 & 2.2 support (MVX-to-MVX appliances only)
 - Multi Chroma subsampling support
 - Multiple fixed compositing
 - Individual encode settings (GOP, QP, profile, VBR/CBR)
 - User definable bitrate – 50 Kbps to 120 Mbps per stream

More details: <https://video.matrox.com/en/products/encoders-decoders/maevex-6100-series>

Matrox Maevox 7100 Series H.264 & H.265 Encoders

- Single-Channel encoder appliances
 - 7112A: AVC/H.264
 - 7112H: AVC/H.264 & HEVC/H.265
- 4K60 capture & encode with zero-latency pass-thru
- Fanless (zero noise)
- HDR support
- Streaming and Recording
 - Simultaneous **capture, encode, stream, record**
 - Protocols: RTP, MPEG2.TS, RTSP, RTMP, SRT
 - Record on network (NAS/NVR)
 - Individual encode settings (GOP, VBR/CBR)
 - User definable bitrate – 64 Kbps to 60 Mbps per stream
- Support for HDR, 802.1x, IGMPv2&v3

NEW

More details: <https://video.matrox.com/en/products/encoders-decoders/maevex-7100-series>

Matrox Maevex 6152 H.264 Decoder

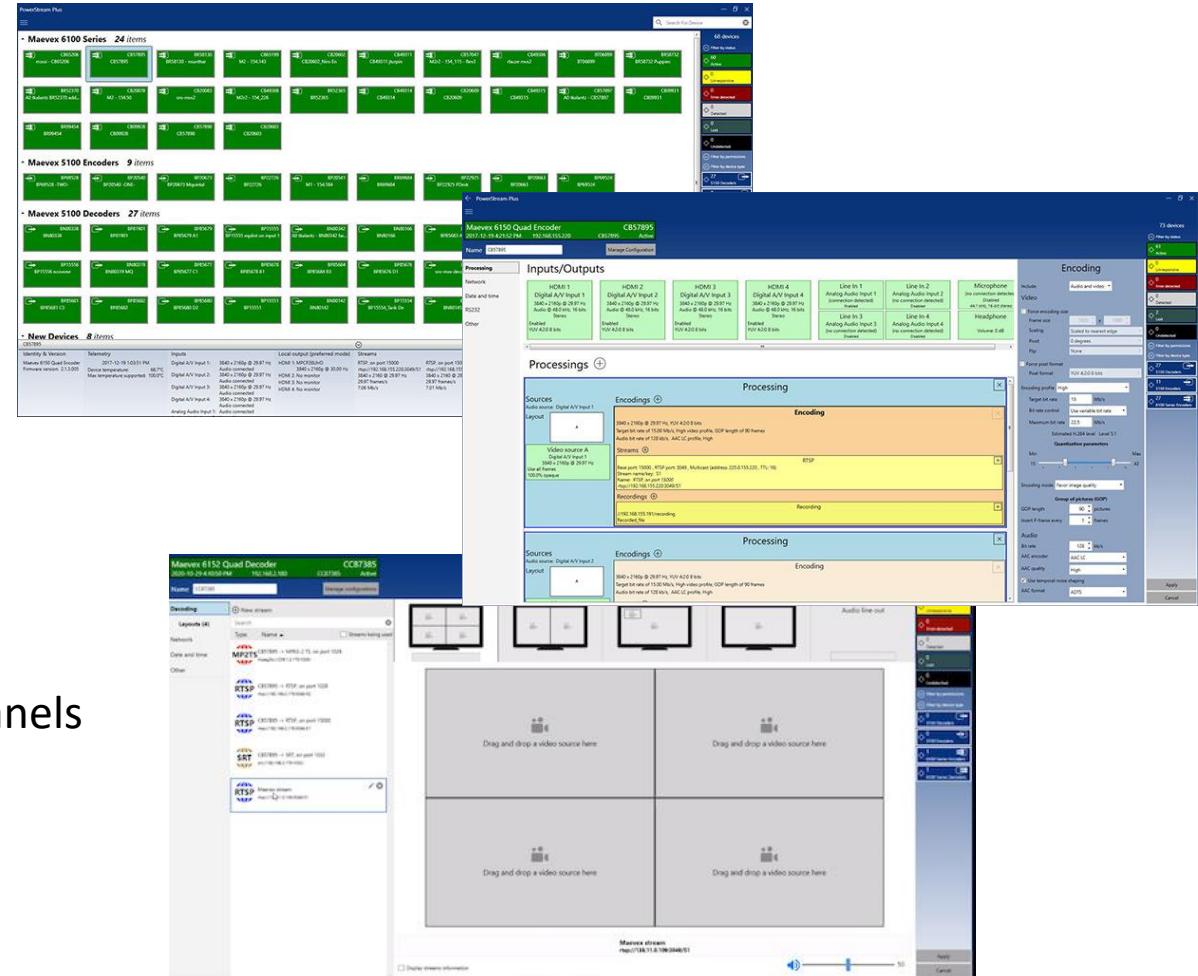

- Quad Decoder appliance
- 4x HDMI 2.0 output
 - Decode of 2x 4Kp60, 4x 4Kp30/60
- HDMI stereo audio for each output
- 1x analog stereo line-out, Mic-in, USB
- Low Latency Maevex to Maevex:
 - Video only ~50ms; Video & audio ~85ms
- Multiple preset layouts
 - Composite support (2x2, PiP, side-by-side, etc.)
 - User-defined/created layouts via API
- Decode and display:
 - 3rd party encoders
 - PTZ Cameras
 - Software encoders

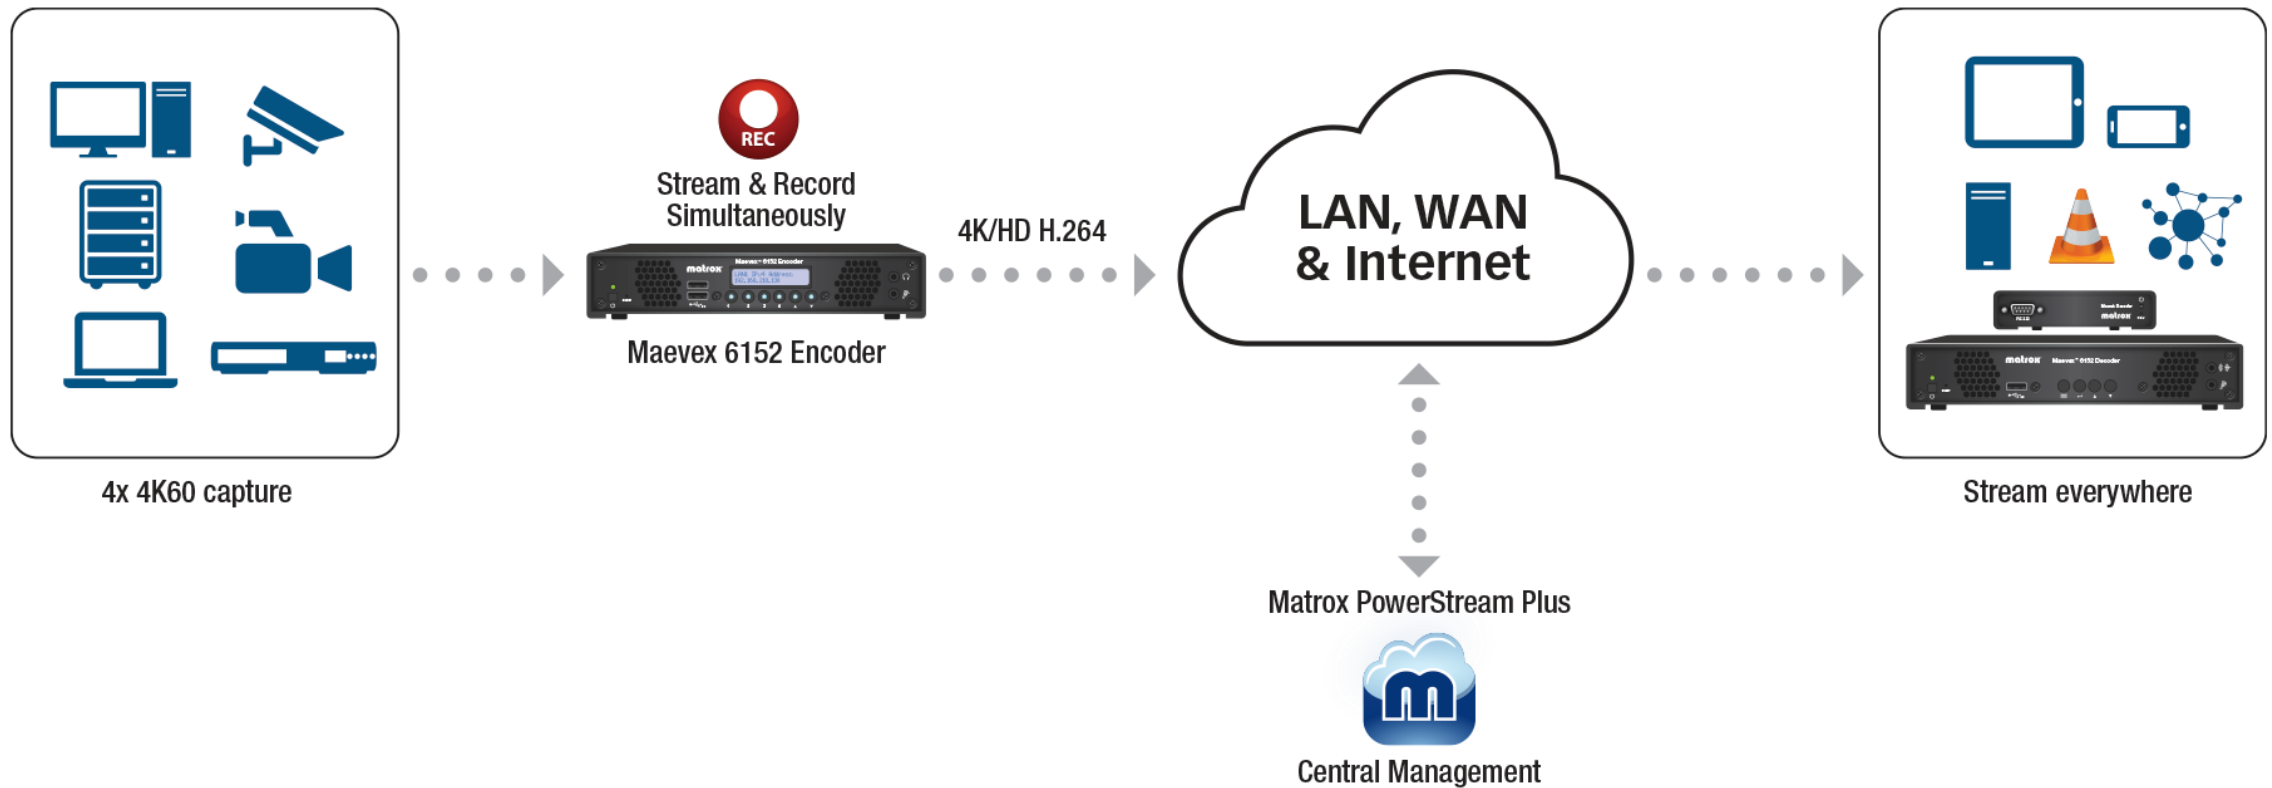

More details: <https://video.matrox.com/en/products/encoders-decoders/maevex-6100-series>

Matrox MaeveX 6100 Series: Management

- PowerStream Plus Application
 - Windows app for management & setup
 - Easy to use
 - Free of charge
- APIs for custom implementation
 - PowerStream Plus API Windows & Linux
 - REST API for rapid customization
 - RS-232 API for easy implementation for control panels

Matrox MaeveX 6100 Series: Workflow

IP KVM Extender:

Matrox Extio3 Series

Matrox Extio3 Series: High Performance IP KVM Extender

- DisplayPort IP KVM, Fiber-optic and copper
- 4Kp60 4:4:4 and up to quad 1080p60 support (N3408)
- Dual 1080p60 (N3208)
- Standard 1GbE network infrastructure
- Multicast, unicast, and multi-unicast
- Longer distances over WAN and Internet
- Encrypted audio, video and USB signals
- Stereo analog audio and digital embedded audio
- Link redundancy
- EDID management
- Direct point-to-point or over IP operation

Extio 3 N3408
4Kp60, dual 4kp30 or quad 1080p60 video

Extio 3 N3208
Dual 1080p60 video

More details: <https://video.matrox.com/en/products/kvm-extenders/extio-3-series>

Matrox Extio3 Series: Flexible Operating Modes

- Point-to-Point (direct)
- Point-to-Point (networked)
- One-to-many
- Many-to-One
- Many-to-Many
- Aggregator Mode
 - Multi-system control in Aggregator mode
 - Share a single set of keyboard and mouse across system
- Tile-View Mode
 - Position and control up to 4 systems on a single display

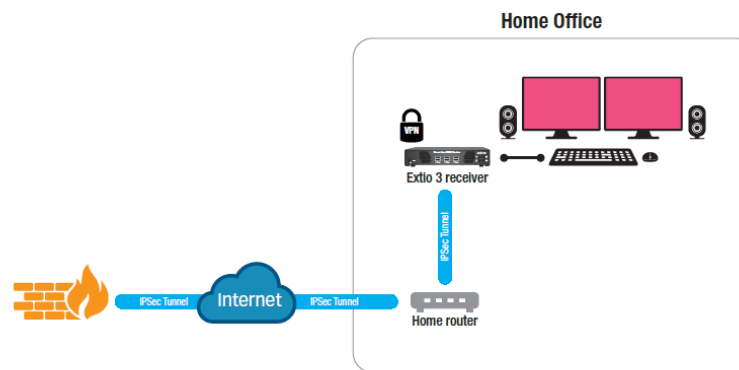

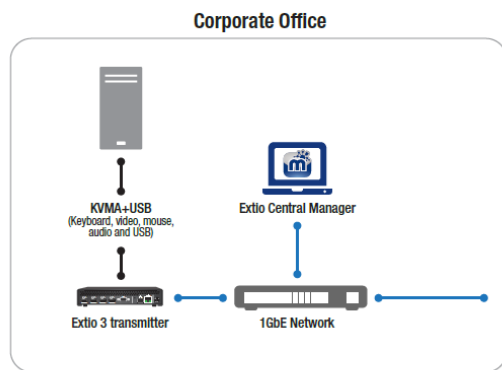

Matrox Extio Central Manager

- Easy to use and intuitive software to configure, manage and monitor all devices
- Define Tx/Rx links, user access rights, and various device settings
- Distributed model – settings and parameters reside locally in each transmitter and receiver device
- Complimentary software, no licensing fees
- .NET and REST API available for developers

The screenshot displays the Matrox Extio Central Manager interface. The main area shows a grid of 23 devices, each with a status indicator (Tx/Rx) and connection information. A search bar is at the top right. A sidebar on the right shows filters for status (Active, Unresponsive, Error detected, etc.), permissions, and device type (Transmitters, Receivers). The bottom panel displays detailed telemetry for a selected device (CB59685), including device temperature, CPU usage, and video/audio input status.

Identity & Versions	Telemetry	Inputs
Extio 3 N3408-TX Firmware version:	2018-01-31 4:29:00 PM Device temperature: 69.6°C Max temperature supported: 100.0°C CPU usage: 14.5% CPU usage for AVI: 15.3%	Video In 1: No video No audio Video In 2: No video No audio Video In 3: No video No audio Video In 4: 3840 x 2160p @ 60.00 Hz Audio connected Line In: No audio

Matrox Extio3 Series: Workflows

NEW

Keyboard & Mouse Switch

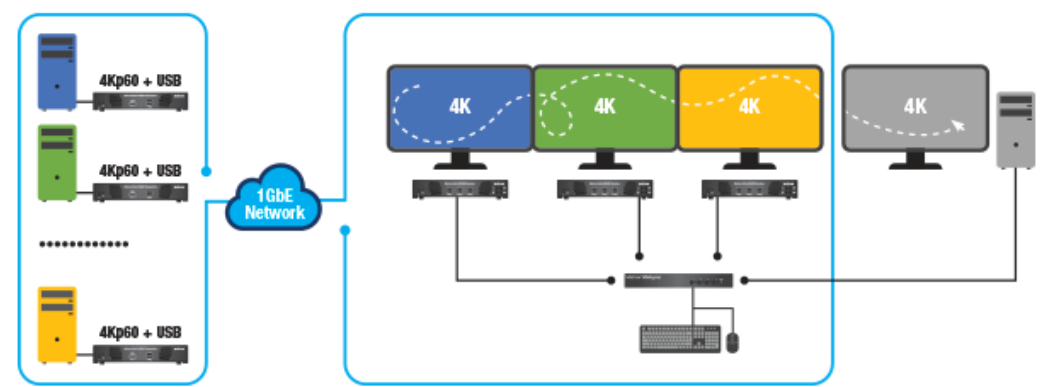

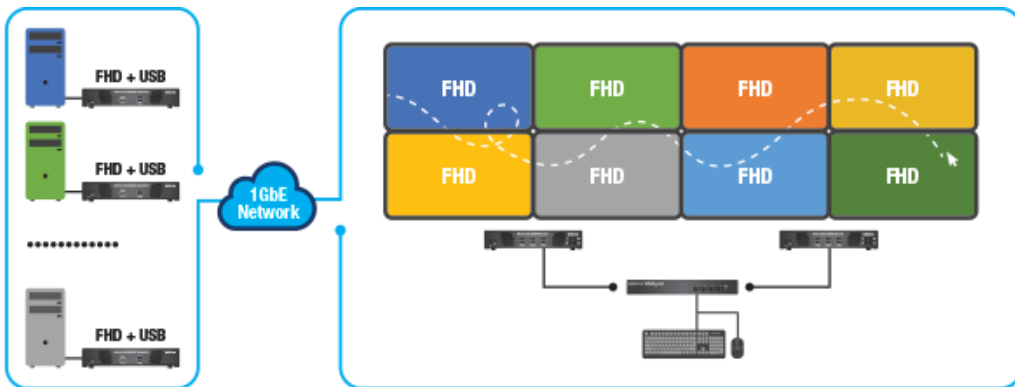

Matrox KMLync

Matrox KMLync: Keyboard & Mouse Switch

Control multiple systems with one set of keyboard & mouse

- 4-port keyboard & mouse switch appliance
- Supports seamless mouse across multiple systems
- Can be used in combination with:
 - Up to 4 Extio3 receiver devices
 - Up to 4 workstations/systems
 - A mix of both

NEW

Multi Display Graphics Cards

Matrox LUMA Series

Matrox LUMA Series Graphics Cards: Key Features

- Single-slot PCI Express Gen 4 x16 (x8 electrical) graphic cards with 4x DP outputs
- 4x 5Kp60 or 2x 8Kp60
- Easy to setup and to configure through Matrox PowerDesk
- Hardware Encode/Decode of H.264, H.265 (HEVC), AV1 and VP9
- DirectX 12 Ultimate, OpenGL 4.6, OpenCL 3.0, Vulkan 1.3 and OneAPI compatible
- Long life cycle with a longevity of more than 5 years
- Powered by Intel® Arc™ GPU
- Supported OS: Win10 & 11, Linux Ubuntu

Matrox LUMA Series Graphics Cards: Multiple Options

- LUMA-A310 Fanless Low-Profile single slot with 4GB, 30W and 4 mini-DP++ 2.1 provides increased reliability through its passive cooling design
- LUMA-A310F/LUMA-A310FP* Low-Profile single slot with 4GB, 50W and 4 mini-DP++ 2.1 with secure connectors delivers increase performance in a small form factor systems.
- LUMA-A380/LUMA-A380P* Full height single slot with 6 GB, 75W and 4 DP++ 2.1 delivers best display density, resolution and performance for demanding multi-monitor applications

* LUMA Pro version has board-to-board connector for framelock support

More details: <https://video.matrox.com/en/products/graphics-cards/luma-series>

Matrox PowerDesk Software

- Robust, field-proven Matrox PowerDesk desktop management software for Windows
- Let users easily configure and manage multi-display setups
- Included with all LUMA graphics cards

Stretched Desktop

Create a single surface across a GPU to span applications across its screens

Independent Desktop

Set displays independently from one another to open different applications within each screen.

Bezel Management

Compensate for the physical space created by monitor bezels to output a continuous image across multiple displays.

Edge Overlap

Adjust the number of overlapping pixels between edge blending projectors to build a seamless, unified image.

Pivot Mode

Select any combination of portrait or landscape and set the orientation that works best for you.

EDID Management

Provide consistent EDID signal to the graphics card to ensure video is displayed correctly.

Clone Mode

Duplicate content to show the same information on all displays.

Join Mode*

Create an ultra-large desktop spanning multiple GPUs to expand applications across all screens

*Join Mode available only on the LUMA Pro models

Multi-Monitor- Controller:

Matrox QuadHead2Go Series

Matrox QuadHead2Go – Multi Monitor Controller

- QuadHead2Go is a 4K video wall appliance or PCIe card designed to
 - display a single video source across dual, triple and quad-displays,
 - in 2x2, 2x1, 3x1, 4x1, 1x2, 1x3, 1x4 or other (artistic) configurations.
- Drive up to four pristine quality Full HD displays from a single 4Kp60 video signal.
- Expand to a video wall configuration of any size by using multiple QuadHead2Go units.
- Create a video wall from **any content source** with a valid video and audio signal.
- Design modern and artistic video wall layouts
 - each output can have its own resolution, be independently rotated (90, 180, and 270 degrees), cropped, upscaled, downscaled, and positioned anywhere.
- Easy to configure – either with push-buttons or with PowerWall software

More details: <https://video.matrox.com/en/products/video-walls/quadhead2go-series>

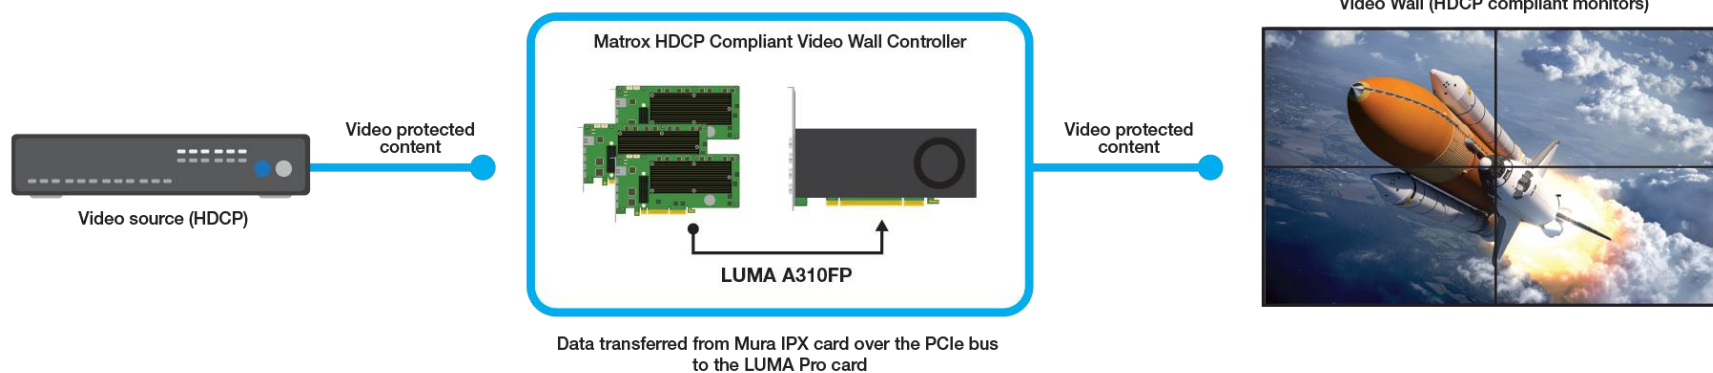

Video Wall Products:

Matrox LUMA Pro & MURA IPX Series

Matrox LUMA-Series Pro: Output cards for your video wall

- Specifications see Matrox LUMA Series
- Frame-lock capability with up to 4 cards per system
- Create a single large canvas using multiple cards
- Native HDCP compatibility with Matrox HDMI capture cards
- GPU H.264 & H.265 streams decoding supported by Mura libraries

Matrox LUMA Series: Overview

	LUMA-A310	LUMA-A310F	LUMA-A380	LUMA-A310FP	LUMA-A380P

And <https://video.matrox.com/en/products/video-walls/luma-pro-series>

Matrox MURA IPX-Series: 4K Capture and IP Encode/Decode cards

- 4K Video Input Capture
 - Quad mini HDMI connectors or
 - Dual DP connectors or
 - Quad SDI connectors
- Video Decoding & Encoding
 - Supports H.264 up to L5.2
 - Support up to dual 4K60, quad 4K30, eight 1080p60, 16 1080p30 and many more SDs (in YUV 4:2:0) on a single board
 - Support for YUV 4:2:0, 4:2:2 and 4:4:4, RGB 8:8:8 and 10:10:10 color space
 - 8 and 10 bit per pixel color depth
 - Bit Rates: CBR, VBR and VBR with Constraints
- HDCP support in combination with Matrox D-Series and LUMA Pro
- RJ45 connector for separate network
- PCIe x8 Gen2 Host Interface (electrically). PCIe x16 mechanically.

More details: <https://video.matrox.com/en/products/video-walls/mura-ipx-series>

Matrox MuraControl Application for Video Wall Control

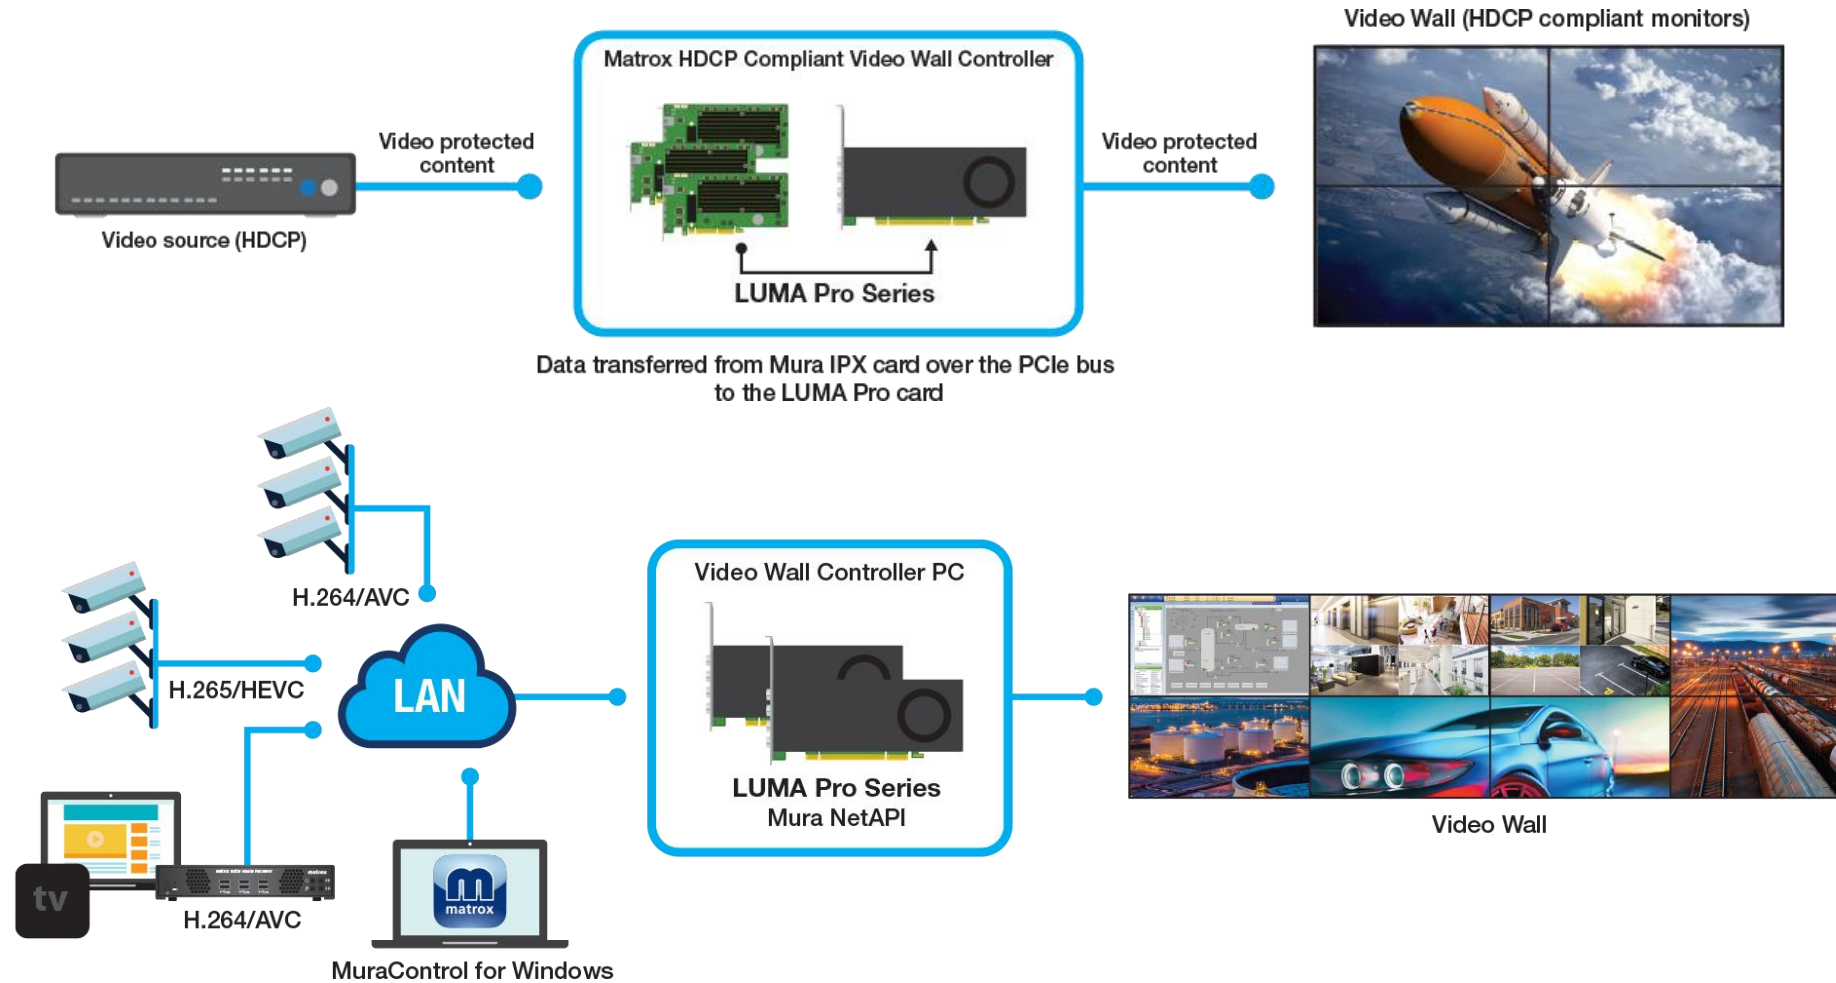

Matrox® MuraControl™ is a low-cost, premium performance, video wall management software that provides an easy and intuitive way to manage Matrox-based video wall, multi-viewer, or personal video wall locally or remotely.

- Fully compatible with LUMA series cards
- Supports Windows 10 and 11
- Free 21-day trial software available
- Free application on iPad

Additional Management via SDK & API

Video Wall Products: Workflows

IPMX / ST2110 Encoders & Decoders:

Matrox ConvertIP Series & ConductIP

Matrox ConvertIP Series: ST 2110 and IPMX Video Converter

ConvertIP are external senders and receivers, transmitting and converting A/V-Signals over IP.

- Lossless signal-transmission (uncompressed)
- Visually lossless signal-transmission (compressed)
- Ultra-Low latency (< 1Frame)
 - 10 lines uncompressed
 - 6-8 ms compressed
- Based on open standards for better compatibility and interoperability
 - IPMX (<https://ipmx.io/resources/>)
 - SMPTE ST2110
 - NMOS ([AMWA](#))

Matrox ConvertIP Series: Specifications

- ✓ Video I/O up to 4K60 4:4:4
 - HDMI
 - SDI or
 - HDBase-T
- ✓ Transmitter (TX) and receiver (RX) identical HW
- ✓ Support for copper or fibre networks
 - RJ45 for 1GB and 2,5GB
 - SFP for 10GB and 25GB
- ✓ Audio
 - Digital via HDMI, SDI or HDBase-T
 - Analog via 3,5 mm connector
- ✓ Power via
 - PoE
 - External power supply (optional)

Award-Winning

Matrox ConvertIP Series: Multiple Options
